NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Practices and Going Concern

The descriptions appearing below in this Note provide an update of those discussed in “Note 1: Summary of Significant Accounting Practices and Going Concern” in the Company’s Annual Statement for the year ended December 31, 2025, and should be read in conjunction with the complete descriptions provided in the 2025 Annual Statement.

A. Accounting Practices

The accompanying financial statements of Ambac Assurance Corporation (the "Company" or "Ambac Assurance“ or "AAC") have been prepared on the basis of accounting practices prescribed or permitted by the State of Wisconsin Office of the Commissioner of Insurance (“Wisconsin Insurance Commissioner” or “OCI”).

OCI recognizes statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under Wisconsin Insurance Law. The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Wisconsin.

Prescribed Accounting Practices:

OCI has prescribed the following accounting practices that differs from NAIC SAP.

- Paragraph 8 of Statement of Statutory Accounting Principles No. 60 “Financial Guaranty Insurance” (“SSAP 60”) allows for a deduction from loss reserves for the time value of money by application of a discount rate equal to the average rate of return on the admitted assets of the financial guaranty insurer as of the date of the computation of the reserve. The discount rate shall be adjusted at the end of each calendar year. Additionally, in accordance with paragraph 13.e of Statutory Accounting Principles No. 97 "Investments in Subsidiary, Controlled and Affiliated Entities" and paragraph 8 of Statutory Accounting Principles No. 5R “Liabilities, Contingencies and Impairments of Assets - Revised”, Ambac Assurance records probable losses on its subsidiaries for which it guarantees their obligations. Ambac Assurance also discounts probable losses on guarantees of subsidiary obligations using a discount rate equal to the average rate of return on its admitted assets. The Company's average rate of return on its admitted assets for 2025 was 5.42%. OCI has directed the Company to utilize a prescribed discount rate of 5.10% for the purpose of discounting both its loss reserves and its probable losses on subsidiary guarantees. Statutory surplus at September 30, 2026 and December 31, 2025 was lower by $15,870,445 and $16,125,366, respectively, than if the Company had reported such amounts in accordance with NAIC SAP. Net income for the nine months ended September 30, 2026 and year ended December 31, 2025 was higher by $254,921 and by $25,690,756, respectively, than if the Company had reported such amounts in accordance with NAIC SAP.

- Paragraph 4 of Statement of Statutory Accounting Principles No. 41 “Surplus Notes” (“SSAP 41”) states that proceeds received by the issuer of surplus notes must be in the form of cash or other admitted assets having readily determinable values and liquidity satisfactory to the commissioner of the state of domicile. Under statutory accounting principles, surplus notes issued in conjunction with commutations or the settlement of obligations would be valued at zero upon issuance pursuant to paragraph 4, SSAP 41. OCI has directed the Company to record surplus notes issued in connection with commutations or the settlement of obligations at full par value upon issuance. Statutory surplus is not impacted as a result of the prescribed practice as it is a reclassification between unassigned funds and surplus notes, and there was no impact on net income since the Company did not issue surplus notes during the nine months ended September 30, 2026.

- Paragraph 35 of Statement of Statutory Accounting Principles No. 43R ”Loan-backed and Structured Securities” states that when an other-than-temporary impairment ("OTTI") has occurred, the amount of the OTTI recognized as a realized loss shall equal the difference between the investment’s amortized cost basis and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security’s effective interest rate. Beginning June 11, 2014, as a result of the amended Segregated Account Rehabilitation Plan, OCI has directed the Company to not evaluate investments in Ambac Assurance insured securities with policies that were allocated to the Segregated Account for OTTI and require all such investments be reported at amortized cost regardless of its NAIC risk designation. This accounting determination was intended to recognize that Ambac Assurance continues to maintain statutory loss reserves without adjustment for the economic effects of its ownership of the insured investment securities, improve transparency to the users of the statutory financial statements and to minimize operational risks. Effective February 12, 2018, with the Segregated Account's exit from Rehabilitation, this prescribed practice was no longer applicable for OTTI evaluations going forward. With respect to OTTI evaluations performed prior to February 12, 2018, statutory surplus at September 30, 2026 and December 31, 2025 was higher by $540,945 and $576,770, respectively, and net income for the nine months ended September 30, 2026 and year ended December 31, 2025 was lower by $35,825 and $1,897,428, respectively, than if the Company had reported such amounts in accordance with NAIC SAP.

Permitted Accounting Practices:

OCI has permitted the following accounting practice that is not in accordance with the Wisconsin Administrative Code.

- Wisconsin accounting practices for changes to contingency reserves differ from NAIC SAP. Under NAIC SAP, contributions to and releases from the contingency reserve are recorded via a direct charge or credit to surplus. Under section 3.08(7)(b) of the Wisconsin Administrative Code, contributions to and releases from the contingency reserve are to be recorded through underwriting income. Ambac Assurance received permission from OCI to record contributions to and releases from the contingency reserve in accordance with NAIC SAP. Statutory surplus is the same using each of these accounting practices. There was no impact to net income for the nine months ended September 30, 2026 and year ended December 31, 2025 since the Company had no contributions or releases to the contingency reserve in either period.

NOTES TO FINANCIAL STATEMENTS

C. Accounting Policies

2. Investments in issuer credit obligations with an NAIC designation of 1 or 2 are reported at amortized cost; amortized cost is computed via the effective interest method. For bonds purchased at a price below par value, discounts are accreted over the remaining term of the bond. For bonds purchased at a price above par value, which have call features, premiums are amortized to the call date that produces the lowest yield. For bonds purchased at a premium that do not have call features, such premiums are amortized over the remaining term of the bond. Bonds with a NAIC designation of 1 or 2 are generally rated investment grade by a nationally recognized statistical rating organization.

   Investments in issuer credit obligations bonds that have an NAIC designation of 3 to 6 are reported at the lower of amortized cost (as described above) or fair value as determined by using independent market sources, when available, and appropriate valuation methodologies when market quotes were not available. In cases where specific market quotes are unavailable, or cannot be reasonably corroborated, interpreting market data and estimating market values require considerable judgment by management. Accordingly, the estimates presented are not necessarily indicative of the amount Ambac Assurance could realize in the market.

   The Company invests in certain SVO-identified bond exchange-traded funds ("ETFs") that qualify for bond reporting under SSAP No. 26R, *Bonds* and the NAIC Purposes and Procedures Manual of the Securities Valuation Office. The Company has not elected the optional systemic value measurement method and accordingly, these investments are carried at fair value. At September 30, 2026, qualifying SVO-identified bond ETFs with a fair value of $63,974,541 were included within Bonds on the balance sheet.

   Ambac Assurance has a formal review process to evaluate whether impairments in the fair value of securities in its investment portfolio are "other-than-temporary". This assessment is based upon various factors, including: (i) actual or expected principal and interest payment defaults on these securities; (ii) analysis of the creditworthiness of the issuer and financial guarantor, as applicable, and (iii) for debt securities that are non-highly rated beneficial interests in securitized financial assets, analysis of whether there was an adverse change in projected cash flows. If the Company believes the decline is “other-than-temporary”, the Company writes down the carrying value of the investment to the present value of the cash flows expected to be received and records a realized loss in the Statement of Income. In addition, for securities that management has the intent to sell, or more likely than not will be required to sell before the anticipated recovery of its amortized cost basis, the amortized cost of the securities is written down to fair value and the other-than-temporary impairment charge is recognized as a realized loss in the Statement of Income. Ambac Assurance’s assessment of a decline in value includes management’s current judgment of the factors noted above. If that judgment changes in the future, Ambac Assurance may ultimately record a loss after having originally concluded that the decline in value was temporary.

   The Company did not hold any mandatory convertible securities at September 30, 2026.

6. Non-agency residential mortgage-backed securities (“RMBS”), other loan-backed and structured securities, including beneficial interests in securitizations and investments in Ambac Assurance insured RMBS (collectively “asset-backed securities”) with a NAIC designation of 1 or 2 are reported at amortized cost. Asset-backed securities with a NAIC designation of 3 to 6 are reported at the lower of amortized cost or fair value. For asset-backed securities subject to multiple designations by the NAIC’s Securities Valuation Office (“SVO”), the current amortized cost is compared to the range of values assigned to the six NAIC designations for each CUSIP to determine the initial NAIC designation. This initial NAIC designation is used to determine the carrying value of such asset-backed securities.

   For asset-backed securities where the collection of all contractual cash flows is not certain, Ambac Assurance shall recognize the excess of all cash flows expected at acquisition over the initial purchase price of the asset-backed security as the accretable yield. If there is a favorable change in estimated cash flows from the cash flows previously projected, the Company will recalculate the accretable yield. If the fair value of the asset-backed security has declined below its amortized cost basis, the Company shall determine whether the decline is other-than-temporary. If there has been an adverse change in estimated cash flows then an other-than-temporary impairment will be considered to have occurred and the asset-backed security will be written down to the current estimate of cash flows discounted at a rate equal to the current accretable yield with the resulting change being recognized as a realized loss in the Statement of Income. Determining whether there has been a favorable or adverse change in estimated cash flows from the cash flows previously projected involves comparing the present value of the remaining flows as estimated at the previous reporting date against the present value of the cash flows estimated at the current reporting date.

   Changes in currently estimated cash flows, including the effect of prepayment assumptions, on asset-backed securities are reviewed periodically. Prepayment assumptions are applied consistently across portfolios to all securities backed by similar collateral. The

D. Loan-Backed and Structured Securities

1. Prepayment assumptions for single class and multi-class loan-backed securities were obtained from publicly available sources.

2. During 2026, the Company did not recognize any other-than-temporary impairments ("OTTI") on asset-backed securities because the Company did not have the intent to sell the securities prior to the recovery of the amortized cost basis and the Company has the ability to retain securities in an unrealized loss position for a period of time sufficient to recover the amortized cost basis.

3. During 2026, the Company recognized OTTI losses on certain loan-backed securities where the present value of cash flows expected to be collected were less than the amortized cost basis of the securities. For the loan-backed securities still held at September 30, 2026, the total amortized cost immediately prior to the recognition of OTTI losses, the OTTI losses recognized during the year ended September 30, 2026, amortized cost after current period other-than-temporary impairment at the time OTTI losses were recognized, and the fair value of these securities at the time of OTTI are as follows:

CUSIP	Book/Adjusted Carrying Value Amortized Cost Before Current Period OTTI	Present Value of Projected Cash Flows	Recognized Other-Than-Temporary Impairment	Amortized Cost After Other-Than-Temporary Impairment	Fair Value at Time of OTTI	Date of Financial Statement Where Reported
004375AE1	$ 496,363	$ 380,078	$ 116,285	$ 380,078	$ 489,352	3/31/2026
16678WAA4	$ 6,335,464	$ 6,235,573	$ 99,891	$ 6,235,573	$ 5,777,824	9/30/2026
TOTAL			$ 216,176			

4. The following table shows all impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings by length of time that the individual securities have been in a continuous unrealized loss position at September 30, 2026:

a. Aggregate amount of unrealized loss	
1. Less than twelve months	$ 14,671,960
2. Twelve months or longer	$ 1,777,139
b. Aggregate fair value of securities with unrealized loss	
1. Less than twelve months	$ 303,343,147
2. Twelve months or longer	$ 17,386,743

5. Management has determined that the unrealized losses reflected in (4) above are temporary in nature as of September 30, 2026 based upon (i) our analysis that no credit deterioration is present, (ii) management has no intent to sell these investments and (iii) it is not more likely than not that the Company will be required to sell these debt securities before the anticipated recovery of its amortized cost basis.

As of September 30, 2026, for securities that have indications of possible OTTI but which management does not intend to sell and will not more likely than not be required to sell, management compared the present value of cash flows expected to be collected to the amortized cost basis of the securities to assess whether the amortized cost will be recovered. Management has concluded that there are no OTTI on these securities at September 30, 2026. Cash flows were discounted at the effective interest rate implicit in the security at the date of acquisition or for debt securities that are beneficial interests in securitized financial assets, at a rate equal to the current yield used to accrete the beneficial interest. For floating rate securities, future cash flows and the discount rate used were both adjusted to reflect changes in the index rate applicable to each security as of the evaluation date.

1. There were no repurchase agreements or securities lending transactions whose disclosures are required in SSAP No. 103R, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (Revised).

(1) In 2026, Ambac Assurance made multiple requests to OCI in to authorize a full or partial payment of accrued interest due on the surplus notes along with a full or partial payment of outstanding principal of the surplus notes but such request was denied. The most recent request made and disapproved was for the period ending September 30, 2026. Refer to column "Unapproved Principal and/or Interest" for the aggregated total of unapproved principal and accrued interest relating to the latest request. As a result of the denial, the scheduled payment date for interest, and the scheduled maturity date for payment of principal of the surplus notes, has been extended until OCI grants approval to make such payment. Interest will accrue, compounded on each anniversary of the original scheduled payment date or scheduled maturity date, on any unpaid principal or interest through the actual date of payment, at 5.1% per annum. Holders of surplus notes have no rights to enforce the payment of the principal of, or interest on, surplus notes in the absence of OCI approval to pay such amount. Unapproved interest and principal per the above table is through September 30, 2026, which is the latest date for which a request for payment has been made and denied.

NOTES TO FINANCIAL STATEMENTS

(2) The surplus notes listed as Item Number 0001 in above table were issued pursuant to Rule 144A under the Securities Act of 1933, with The Bank of New York Mellon as fiscal paying agent.

(3) A portion of the surplus notes listed in Item Number 0001 are owned by affiliates of Ambac Assurance. American Acorn Holdings, LLC purchased Ambac Assurance surplus notes between November 5, 2025 and September 30, 2026 from third party holders, with a total par value of $150,421,573 and total acquired accrued but unpaid interest of $168,910,875. BW/IP - New Mexico, Inc. purchased Ambac Assurance surplus notes on December 9, 2025 and December 18, 2025 from third party holders, with a total par value of $29,679,797 and total acquired accrued but unpaid interest of $32,936,598. As of September 30, 2026, these affiliated parties hold Ambac Assurance surplus notes with a total par value of $180,101,370 and acquired accrued but unpaid interest of $201,847,473.

As required by the terms of surplus notes and/or otherwise, AAC will continue to seek OCI's approval to make payments of principal and interest on its surplus notes. AAC intends to make these requests at least four times a year with respect to payment of a partial amount, as well as the full amount, of the principal and interest then due, unless otherwise directed by OCI. OCI's approval of AAC's requests for surplus note payments may be granted or denied in OCI's sole discretion. Since the issuance of the surplus notes in 2010, OCI has declined to approve regular payments of interest on surplus notes, although the OCI has permitted two exceptional payments. Ambac can provide no assurance as to when or if surplus note principal and interest payments will be made. If OCI does not approve payments on or the acquisition of surplus notes over time, the ongoing accretion of interest on the notes may impair AAC's ability to extinguish the notes in full. Surplus notes are subordinated in right of payment to policyholder and other claims.

Regulatory Matters

Ambac Assurance has periodically received various regulatory inquiries and requests for information with respect to investigations and inquiries that such regulators are conducting. Ambac Assurance has complied with all such inquiries and requests for information.

Litigation Against Ambac Assurance

In re National Collegiate Student Loan Trusts Litigation (Delaware Court of Chancery, Consolidated C.A. No. 12111, filed November 1, 2019). The Vice Chancellor entered a series of stays to facilitate good-faith settlement discussions, the most recent of which was entered on May 2, 2023, and stayed the matter through May 5, 2023. Since then, the parties have filed periodic status reports stating that certain parties continue to negotiate a resolution of some of the pending claims. The parties filed their most recent status report on November 9, 2026.

Jereczek v. MBIA Inc., Case No. 25-CV-223 (United States District Court for the District of Connecticut, filed on February 12, 2025) (the "COFINA Case"). On February 13, 2026, the Court entered an order dismissing for lack of personal jurisdiction Plaintiffs' claims against Ambac Financial Group, Inc., Ambac Assurance Corporation, MBIA Insurance Corporation, and National Public Finance Guarantee Corporation for lack of personal jurisdiction, and dismissing, without prejudice, claims against MBIA Inc. for failure to state a claim. On March 6, 2026, Plaintiffs filed a second amended complaint in the District of Connecticut, asserting claims solely against MBIA Inc. On April 20, 2026, MBIA Inc. moved to dismiss the second amended complaint or, in the alternative, to transfer the action to the Title III court. Plaintiffs may seek to refile their claims against Ambac Financial Group, Inc., Ambac Assurance Corporation, and other dismissed defendants in an appropriate forum.

Rational Special Situations Income Fund, a series of the Mutual Fund & Variable Interest Trust v. Ambac Assurance Corporation (Supreme Court of the State of New York, County of New York, Index No. 656053/2026, filed October 23, 2026). Plaintiff, a purported beneficial holder of certain surplus notes issued by Ambac Assurance, filed a complaint alleging that Ambac Assurance breached the Fiscal Agency Agreement, dated June 7, 2010, pursuant to which the surplus notes were issued, and the Settlement Agreement. The allegations include that Ambac Assurance has failed to use best efforts to obtain permission from OCI to make payments to holders of the surplus notes, including by failing to take actions with respect to the management of its business that Plaintiff believes would make OCI approval more likely. The complaint also alleges that a loan made by Ambac UK to its affiliate, Ajax Holdco, LLC, breached a Settlement Agreement provision concerning affiliate transactions. Plaintiff asks the court to (1) award it unspecified damages, (2) declare that the "best efforts" covenant in the Fiscal Agency Agreement requires Ambac Assurance to refrain from actions whose effect is to depress OCI Runoff Capital Framework calculations of Ambac Assurance's capital and to take certain actions to increase the amount of its surplus capital, (3) direct Ambac Assurance to specifically perform its obligations under the Fiscal Agency Agreement, including its "best efforts" covenant, by (a) directing Ambac UK to seek non-objection from its regulator to a dividend to Ambac Assurance and (b) cancelling or commuting the financial guarantee insurance covering certain Ambac Assurance-insured bonds owned by Ambac Assurance, and (4) grant such other relief as the court deems just, proper and equitable.

It is not reasonably possible to predict whether additional suits will be filed or whether additional inquiries or requests for information will be made, and it is also not possible to predict the outcome of litigation, inquiries or requests for information. It is possible that there could be unfavorable outcomes in these or other proceedings. Legal accruals for litigation against the Company with losses that are probable and reasonably estimable are not material to the operating results or financial position of the Company. For the litigation matters the Company is defending that do not meet the "probable and reasonably estimable" accrual threshold and where no loss estimates have been provided

NOTES TO FINANCIAL STATEMENTS

above, management is unable to make a meaningful estimate of the amount or range of loss that could result from unfavorable outcomes. Under some circumstances, adverse results in any such proceedings could be material to our business, operations, financial position, profitability or cash flows. The Company believes that it has substantial defenses to the claims above and, to the extent that these actions proceed, the Company intends to defend itself vigorously; however, the Company is not able to predict the outcomes of these actions.

20. Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

1. The fair value of the Company's financial assets and liabilities have been classified, for disclosure purposes, based on a hierarchy defined by the Statement of Statutory Accounting Principles No. 100R "Fair Value Measurements" ("SSAP 100R"). SSAP 100R specifies a fair value hierarchy based on whether the inputs to valuation techniques used to measure fair value are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect Company-based assumptions. In accordance with SSAP 100R, the fair value hierarchy prioritizes model inputs into three broad levels as follows:

- Level 1 – Quoted prices for identical instruments in active markets. Assets typically classified as Level 1 include U.S. treasury securities, money market funds and mutual funds.

- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Assets classified as Level 2 generally include fixed maturity securities representing municipal, asset-backed and corporate obligations.

- Level 3 – Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. This hierarchy requires the use of observable market data when available. Assets and liabilities classified as Level 3 typically include certain fixed maturity securities for which quoted prices are not available and the fair value of financial guarantees. Valuation models require significant Company based assumptions.

SSAP 100R permits the utilization of net asset value per share or its equivalent ("NAV") as a practical expedient to estimate fair value for certain investments in funds that meet the definition of an investment company. Investments in funds valued using NAV are not categorized as Level 1, 2 or 3 under the fair value hierarchy.

When available, the Company uses quoted market prices to determine fair value, and classifies such items within Level 1. If quoted market prices are not available or cannot be reasonably corroborated, fair value is based upon models that use; where possible, current market-based or independently-sourced market parameters. Items valued using valuation models are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be significant inputs that are readily observable.

The determination of fair value for financial instruments categorized in Level 2 or 3 involves judgment due to the complexity of factors contributing to the valuation. Third-party sources from which we obtain independent market quotes also use assumptions, judgments and estimates in determining financial instrument values and different third parties may use different methodologies or provide different prices for securities. As a result of these factors, the actual trade value of a financial instrument in the market may be significantly different from its reported fair value.

The following table sets forth Ambac Assurance's financial assets and liabilities that were measured and reported at fair value in the statement of financial position after initial recognition as of September 30, 2026 by level within the fair value hierarchy:

[1] Includes the following liabilities: losses, loss adjustment expenses, contingency reserves, unearned premiums and ceded reinsurance premiums payable; offset by the following admitted assets: uncollected premiums in the course of collection, deferred premiums and installments booked but deferred and not yet due and amounts recoverable from reinsurers.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate that value:

Issuer Credit Obligations, Asset-Backed Securities and SVO-registered Funds

The estimated fair values represent fair values as determined by using independent market sources when available and appropriate valuation methodologies when market quotes are not available. The estimated fair values are based primarily on market prices received from dealer quotes or alternative pricing sources. Such quotes generally consider a variety of factors, including recent trades of the same and similar securities. For those bonds where quotes were not available or cannot be reasonably corroborated, fair values are based on internal valuation models, which require significant management judgment to interpret market data and estimate fair values. Accordingly, the estimates presented are not necessarily indicative of the amount Ambac Assurance could realize in the market. At September 30, 2026, approximately 1%, 81% and 18% of the fixed maturity bond portfolio was valued using dealer quotes, alternative pricing sources and internal valuation models, respectively.

Cash and Cash Equivalents

The fair values of cash equivalents are determined by using independent market sources. The fair value of cash is determined by using its bank balance.

Common and Preferred Stocks

The estimated fair values represent fair values as determined by using independent market sources, when available, and appropriate valuation methodologies when market quotes are not available. The estimated fair values are based primarily on market prices received from exchanges, dealer quotes or alternative pricing sources. Such quotes generally consider a variety of factors, including recent trades of the same and similar securities.

Receivables for Securities

The fair values of receivable for securities approximates carrying value before any non-admit asset adjustment.

Other Invested Assets

The fair value of other unaffiliated invested assets are determined using prices from independent market sources when available and appropriate valuation methodologies when market quotes are not available. When fair value is not readily determinable, other unaffiliated invested assets consisting of pooled investment funds are valued using NAV as a practical expedient.

Liabilities for Net Financial Guarantees Written

Fair value of net financial guarantees written represents our estimate of the cost to Ambac Assurance to completely transfer its insurance obligation to another financial guarantor under current market conditions. This amount should be the same amount that another financial guarantor would hypothetically charge (on a present value basis) in the market place to provide the same protection as of the balance sheet date. This fair value estimate of financial guarantees is disclosed on a net basis, and includes direct insurance policies net of ceded reinsurance contracts.

NOTES TO FINANCIAL STATEMENTS

This methodology is based on management's expectations of how a market participant would estimate net cash flows. Pursuant to paragraph 14 of SSAP 100R, a credit valuation adjustment for the Company's creditworthiness has not been incorporated in our current fair value estimate.

4. Ambac Assurance's loss reserves are based on management's on-going review of the financial guarantee insured credit portfolio. Active surveillance of the insured portfolio enables Ambac Assurance's Risk Management Group to track credit migration of insured obligations from period to period and update internal classifications and credit ratings for each transaction. Non-adversely classified credits are assigned a Class I rating while adversely classified credits are assigned a rating of Class IA through Class V. The criteria for an exposure to be assigned an adversely classified credit rating includes the deterioration of an issuer's financial condition, underperformance of the underlying collateral (for collateral dependent transactions such as mortgage-backed securitizations and students loans), poor performance by the servicer of the underlying collateral and other adverse economic events or trends. The servicer of the underlying collateral of an insured securitization transaction is a consideration in assessing credit quality because the servicer's performance can directly impact the performance of the related issue.

NOTES TO FINANCIAL STATEMENTS

Additional remediation activities applied to adversely classified credits can include various actions by Ambac Assurance. The most common actions include obtaining detailed appraisal information on collateral, meetings with the issuer's or servicer's management to review operations, financial condition and financial forecasts and analysis of the issuer's financial statements. Senior management meets at least quarterly with the Risk Management Group to review the status of their work to determine the adequacy of Ambac Assurance's case basis loss reserves.

All insured credits are assigned risk classifications by the Risk Management Group. Please refer to Note 36 "Financial Guaranty Insurance" in the Company's Annual Statement for the year ended December 31, 2025 for complete guidelines of risk classifications.

Entities that are deemed “Disclaimed Entities” pursuant to the Disclaimer of Affiliation filed with the domiciliary insurance department of the reporting entity, are not displayed. “Disclaimed Entities” comprise Each Management Company (other than Oaktree Capital Management, L.P. and Management Companies within the chain of control of the Global Opportunities Investment Strategy); Each Fund (other than the Opps XII Fund and other funds within the Global Opportunities Investment Strategy); and Each Portfolio Company (other than the Domestic Insurer, its direct or indirect parents or subsidiaries, and any Portfolio Company which constitutes an Insurance Affiliate). The Disclaimed Entities do not include (i) any Portfolio Company that is an Insurance Affiliate, (ii) the Opps XII Fund or other Funds within the Global Opportunities Investment Strategy, (iii) Oaktree Capital Management, L.P. and (iv) the Management Companies within the Global Opportunities Investment Strategy.

Oaktree and Oaktree Funds form entities for the purpose of holding Portfolio Companies; for purposes of these definitions, we consider these entities part of the Portfolio Company rather than Oaktree Fund Entities, and therefore disclaimed entities under the above definition unless they are deemed Insurance Affiliates. Previously, many of these entities were not disclaimed and such entities will not be changed, however going forward other entities in this category will be treated as disclaimed entities.

All Disclaimed Entities are omitted and where necessary companies owned directly or indirectly by one or more Disclaimed Entities are instead linked to the next non-Disclaimed Entity in the chain of ownership.

Federal Employer’s Identification Number, NAIC company code, and two-letter state abbreviations of the state of domicile for domestic insurers are presented in Schedule Y, Part 1A.
